DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Keep in your heart all the Graces that the Lord granted you and consolidate, within yourself, the action of His infinite and unfathomable Mercy.

Remember, every day, that you are the fruit of the Grace and Mercy of God, which acted within you, as in your consciousness, releasing you from all the evil that kept you tied to the things of the world.

Keep your heart immersed in Divine Mercy, remembering that the Grace of God is something that must be cultivated and sustained within you. Make the gifts and virtues that the Lord granted you grow and multiply, because the time has come to put into practice, before the atrocities of the world, the faith and perseverance in the Love of Christ.

You will not be free from this test, child, because the purification has now extended beyond the invisible of your inner world and has reached the consciousness of the planet. But, just as you pray, you clamor and sustain your own inner self; now with more fervor, pray, clamor, and sustain life upon Earth.

Do not let chaos, hate or fear approach your heart. Love and do not forget that love is your only tool at this time.

Your Father and Friend,

The Most Chaste Saint Joseph
