DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY LUCÍA DE JESÚS

May your most sincere pleas and cries for Divine Mercy rise up to the Heavens.

May the union between your spirits and God be consolidated.

May you leave behind the cycles of immaturity and of half-surrenders.

May you leave behind your irresponsibility and your ignorance, for the time has come, children, for each being to take responsibility for their choices, for tracing their destinies, because the final test of humanity is already being designed and both the external events and your own inner purification will be lived according to your own choices.

Pray and cry out for Mercy. Strip yourselves of the small and big wills and human aspirations; your aspirations must be in the Cosmos, in the return to the Origin and in the fulfilling of God's Plans.

Live the cycles with wisdom, knowing how to let yourselves be guided, renouncing when necessary, making an effort, each day a little more, deepening in your own surrender and donation, and above all, consolidating your union with God.

The purification of the planet will not be something lived by a few nations, just as the inner purification is no longer an instruction transcribed from the Words of the Messengers of God. Everyone can feel this purification in themselves, and thus, everyone will also feel and live the consequences of the purification of the nations and of the consciousness of the planet.

Keep your hearts and minds in peace through prayer and place your deepest aspirations upon surpassing yourselves in love.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
