DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Although you are purifying yourself, and the planet is intensely purifying itself, never cease to see the beauty within you.

Although all inner resistance is being removed and the elements of Nature are cleaning the spaces, never cease to see the beauty within you.

Although everything within you is moving and you no longer know how to begin again, and in the world only wars exist, never cease to see the beauty within you.

Because that faith in what is real and found in each being will allow humanity to be something rescuable, and in this way, more doorways of light will open so that lost and distracted souls may receive the intervention of that which is Higher and is Divine.

In these times of great movements may you never cease to see the beauty within you because this will make each moment more sublime and gentle, you will learn from each life experience and you will enrich your spirit with new instructions.

So never cease to see the beauty within you; thus, you will make room for the healing of humanity on deeper levels of consciousness.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
