DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF FLORIANOPOLIS, SANTA CATARINA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The water from the rain comes to purify the Earth. The storm and its lightning bolts come to demagnetize the planet from non-luminous currents.

All the elements prepare to cleanse Brazil from what it has built, as a people, through its free will.

The warnings were given, but few, in truth, listened.

The elements of Nature are about to give birth to their powerful currents of purification; this will help to detoxify human consciousness and will also help to relieve the other Kingdoms of Nature.

The time for correction has come. The hour to place everything in its correct balance has come.

The humankind of surface has valued little what God has given them.

The transgressions have been many and now, the planet itself, as a great element of fire and water, will purify itself so that, some day, free from influences, it may be able to flourish again and bring from the Universe that which belongs to the life of all beings.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
