DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF FLORIANOPOLIS, SANTA CATARINA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Your inner world is crystalline and visible before the Gaze of God; in it is kept the story that God created before the origin of your existence.

The inner world is capable of recognizing and capturing the luminous impulses that come from the Creator Source that manifested it.

For this reason, the inner world can reacquire the principles and attributes that it may have lost through influences of the material world and its tendencies.

At this critical time, in which everything is being defined within the inner worlds of beings, it will be necessary to turn inward to connect with the Origin, and thus be able to recover the impulses that, for different reasons, may have disappeared from the spiritual consciousness of the being.

The inner world, which is that space where the sacred treasure of each soul is found, serves as a bridge of contact with higher realities, and this allows that, the surface being, through it, can be in contact with higher levels of consciousness.

In this way, the inner world can reintegrate a being who may have lost the path of love and of light and have them live a great change, which, if it is strong and radical, will cause them to transform their life forever.

In this time, the inner world waits for a conscious connection from creatures so that an inner contact that will surpass all limits and tests may be established.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
