MENSAJE DIARIO DE MARÍA, ROSA DE LA PAZ, TRANSMITIDO EN EL CENTRO MARIANO DE AURORA, PAYSANDÚ, URUGUAY, AL VIDENTE FRAY ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

My dear children,

My caress is like the passing of a soft wind.

My bosom is like receiving the warm heat of the sun in wintertime.

My Love is like the tenderness of a mother with her little child.

My prayer is like the rain that constantly falls.

My hope is like the flower that opens to sunrays.

My faith is like the celestial dome at night.

My supplication is like the call of the Universe to all beings.

My devotion is like the fire of the night.

My peace is like the waves that harmoniously strike the oceans.

My healing is like the sunray that penetrates the dark earth.

My unity is like the balance and harmony of the Local Universe.

My light is like the Sun at dawn until it reaches the highest point.

My happiness is the consecration of the children of God.

My joy is the concretion of priestly life.

My patience is like the fruit that slowly ripens in the tree.

My sweetness is like the sweetest fruit of the planet.

My mission is like the selfless service of those who tirelessly serve God.

And how are your virtues, My child?

Have you found the similarity of your actions in the Creation?

Let this principle of the Gift of God flow in you.

Allow the talents of these times to awaken, so that the Earth may be repopulated with simple, but true values.

Dare to say "yes" to the virtue of the heart.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
