DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

While the Sacred Book of God opens to reveal the true history of the Creation, the Universal Son listens attentively the words of the Sweet Mother, and, after Her Message has been propagated, the Redeemer gives continuity to the history written in the Greater Universe.

The "degrees of love" were the most direct path for Adam and Eve to be able to transcend and overcome duality.

It was thus that sometime later the Universal Project, which had begun on Earth with the first settlers of humanity, had to transit different schools of learning that began to arrive in the form of experiences and processes of life.

The place called Eden was the location within the Earth that was put to test.

The next generations of Adams and Eves, aware of duality and free will, began to define within themselves the importance of giving continuity to the Greater Will that had brought them to the Earth.

They knew they were Children of God, that they had a Higher Father Who had given them everything He had so that they might be happy. They knew He was a Father of pure love that had created everything that exists in Heaven and on Earth so that the Adams and the Eves would love Him and recognize Him.

In this scene of Eden, as the Bible expresses, the tempting presence of the symbol of the serpent was not absent; a parallel movement that the adversary articulated to convince the Children of God that they, by having more freedom, could choose more, and thus satisfy themselves.

This whole plan of the fallen angel tried to boycott the Original Project that, in the end, was interfered with.

But the other Archangels of the Mental Universe helped the following generations of the Adams and the Eves to continue ahead and fulfill this yearned for Project of God, which holds planet Earth as the scene.

In that time, the Archangels made the Adams and Eves become aware that they had not been faithful, that by the error of their first parents, Adam and Eve, they had acquired duality and, as a result, they acquired original sin, which means to be born with a spiritual stain of impurity, due to what had happened in the past.

But within the aspiration of God, this Project of His first children began to be accomplished when they themselves discovered within that they could live a love as great and similar to the one the Father expressed for all through the manifestation of Creation.

For this reason, the Archangels made the Faithful Children of God become aware that they could overcome their choices and differences if, in truth, they loved life and everything that exists.

It was thus, some generations after Adam and Eve were capable, with their limited knowledge, of loving Creation, just as the Heavenly Father loves it.

In this school of being able to experience the first steps of Christic Love, there has been no shortage of temptations and tests, which lead to defining the future continuity of the first settlers of Earth.

The Archangels gave an infinity of impulses, spiritual and practical keys for the Adams and Eves to keep the principles that had brought them to the Earth alive so that later they might represent and be the reflection of a first terrestrial Brotherhood, which would faithfully follow the attributes of God.

In that time, these first people of the Earth attained this aspiration of God and managed to live very civilized patterns of behavior, which led them later to express, as states of consciousness, Christic codes in personal and family life.

In this way, God, as the Father of all that was created, testified in the origins of the Earth that, in spite of the plan of duality, of the fallen angel, the first human beings were able to overcome all barriers of consciousness through the unconditional surrender to the Designs of God and, especially, through the primary living of Christic Love.

The passage of the first settlers of the Earth and the result reached by the intervention and the work of the Archangels gave, as a result, the continuity of humanity so that it could be increasingly close to God.

We will continue these revelations in the internal Books of God.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master, Christ Jesus
