DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Happy are those who, aspiring to deeply know the Universe and the Creation of God, do not fear to know themselves and enter the depths of their human condition to transform it.

Happy are those who recognize the grandeur of Creation, and thirsting for its mysteries, know that, in order to enter the infinite Cosmos, they must first enter into themselves in order to transform it.

Happy are those who show themselves to be firm before the world, fearless and faithful before God, but who, above all, use this virtue to transform themselves, so as to not fall into their own traps, to not succumb to the errors they already know they must overcome.

Happy are those who aspire to the new human being and to the new time and do not look for it in their fellow being, but rather within themselves.

Happy are those who know that the renewal of love begins within themselves and love this mystery enough to surrender to God everything that, in themselves, does not know love and refuses to love.

Happy are those who are willing to be instruments of God, rather than of themselves; those who want to build the Celestial Kingdom on Earth, rather than the human kingdom, and know that the first who must learn to be servants of God are themselves.

Happy are those who find their joy in service, in sacrifice, and in self-transformation, for these will be worthy, until the end, of being called companions of Christ. In their surrender, the Love of God will be renewed; in their void, the New Church of Christ will rise; in their nothingness, the grandeur of the Creator will be revealed to the world.

Choose to be happy before God and full of His Spirit. Thus, you will know peace, even in times of transition.

Your Father and Friend,

The Most Chaste Saint Joseph
