DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN PUERTO VIEJO, LIMA, PERU, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

With the light of the oceans and the Celestial Mirrors, your Universal Mother radiates toward the great imbalance of humanity, in order to harmonize and repair it.

With the inner essence of the Marine Kingdoms, your Celestial Mother maintains the planet on its axis and spiritually purifies everything that the human being of the surface causes to Creation.

With the essence of love of the whales and the dolphins, despite being outraged, your Celestial Mother provides humanity with a Source of unknown spiritual love that is not valued by human beings.

With this Source, the Mother of God stops the marine cataclysms such as earthquakes and tsunamis.

With the essence of love of all the Marine Kingdoms, your Celestial Mother can revert, little by little, the grim thought of hunting and fishing of the whales and the dolphins, as a means of unconstrained profit of the present humanity.

With the essence of love of those who pray for the Kingdoms of Nature, I can balance the great human debt as well as all actions contrary to Creation that this race commits, every day.

With the consciousness and the love of those who awaken in this time, I can make a New Humanity emerge.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
