DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Series - Divine Revelations of these times

In the Humble Cave of Bethlehem - Part I

And it was through the powerful Light of the Star of Bethlehem that your Mother and Lady, in the humble Company of Her Spouse, Saint Joseph, after having sought a simple place for the Birth of the Child King, We accepted a gift from God, which We did not expect but, at the same time, We perceived it as a visible sign during the Birth of the Child God.

It was the supreme decision that the Living God, made man and consciousness, wanted to be born in a humble manger within the caves near the village of Bethlehem.

This was so the Sacred Family, through the inner guidance of Archangel Saint Gabriel, could settle and prepare for the expected Birth of Who, throughout the times and generations, would free humankind from a possible self-destruction and a total loss of attributes and the Commandments that, as a people, in that time, united them to God.

It was for that reason that the Birth of the Messiah, the King of Israel and of the entire Earth, was prophesized and announced by the wisest contact-beings who understood, on an internal level, the cosmic vision of the local space of this Universe and, through angelic intercession, deciphered the estimated day and hour of the arrival and Birth of the Child Jesus in Bethlehem, even without previously knowing the Sacred Family.

My Husband, Saint Joseph, touched and internalized by the Birth of Christ, and by the fulfillment of the Sacred Prophecies, testified that all of His great effort and striving for the preparation of the arrival of the Little Child would be small.

Behind the Birth of Jesus, the Most Holy Mary, your Divine Mother, already knew, from the thirteen annunciations of Archangel Gabriel, that the arrival of the Child King would mean a most important Celestial, Divine and Cosmic intervention, a situation that would change and transcend all past human errors, from Eden, with Adam and Eve, up until the end of times, until the fulfillment of His second return to humanity.

This intervention, which took place in the humble and simple scenery of the cave of Bethlehem, represented the restoration of the Alliance that had been lost between humanity and God; but it also meant the re-establishment of the codes of Love-Wisdom which, from the spiritual plane, would help the material plane of the entire human race.

The first Source of Creation, which arises in the immaterial plane, lived a process of materialization of its forms and matrixes in order to contribute to the Birth of Jesus on Earth.

This movement of very high vibratory-spiritual science also meant a strong movement of cosmic and solar currents, of emanations and divine impulses which assisted so that, through the Birth of Christ, not only one of the Divine Aspects of the Trinity could descend onto the Earth, but also a state of contact between all beings who, at that time of the Birth of Christ, had total confidence about the arrival of their savior.

For this reason, the annunciation of the angels to the shepherds and the wise interpretation and attunement of the Kings of the East generated, in all of the spiritual consciousness of the planet, the possibility of placing the Earth, once again, in a rescuable disposition.

When Jesus was born in the manger of Bethlehem many other spiritual, internal and even physical events occurred, since the descent of the immaterial energy of God embraced and encompassed many planetary events.

All of those who, with sincerity and devotion, remember the Birth of Christ, year after year, re-enter into the same cosmic and divine currents from which, more than two thousand years ago, the process of rescue and redemption of humanity was originated.

To celebrate the Birth of Christ every year is not living the past or returning to a true story, but rather it means to return to the Origin of the Origin, not only as a planet, but also as a being, through the Birth of Christ, in order to have access to a state of spiritual atonement and to be able to regain the purpose that brought each being to the Earth, in spite of all the mistakes lived.

It is this impulse that until today enables the continuity, on the planet, of the existence of Christic beings who will generate, step by step, the fulfillment of the Plan.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
