DAILY MESSAGE OF THE GLORIFIED JESUS CHRIST, TRANSMITTED IN GAROPABA, SANTA CATARINA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Within the great oceans of the Earth, places in which intra-oceanic life manifests, the Kingdoms of the sea maintain the essential balance for the manifestation of harmony within the planet.

In this sense, the marine beings, for example the dolphins and the whales, draw toward humanity and especially toward the planet, the possibility of maintaining harmony between Heaven and Earth between the inner world and the external world of the human consciousness.

When these Kingdoms are continually abused, this cycle of harmony is broken, humanity increases its debt in the face of Divine Justice and of Creation and, as a side effect, this causes an increase in the psychic imbalance of the different peoples and races; without there being any possibility for finding a cure for all of these mental disorders.

For this reason, the love and the respect that the human being is capable of expressing for Creation can collaborate in this physical-spiritual support that, in this case, whales and dolphins provide, as consciousnesses that have evolved more than the human being.

Each aspect of Creation fulfills a mission within the Material Universe; if these missions are interrupted, chaos is produced in humanity.

Human beings must carry out a conscious introspection in order to be able to awaken their love for Creation.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master, Christ Jesus
