Apparition of Mary, Rose of Peace, in the Marian Center of Aurora, Paysandú, Uruguay, to the visionary Friar Elías del Sagrado Corazón de Jesús

In the name of the Father, the Son and the Holy Spirit. Amen.

The Mother of God penetrates the planet today with Her Light and helps, on this special day, in the awakening of humanity, of the hearts that are asleep and that need to recognize their commitment to God in this time.

Today is a special day, in spite of the events and of the climatic phenomena, in spite of the purification of the planet, of the purification of the Kingdoms of Nature and of the transition that many, but many hearts live at this time.

It is a special day because it is the day of the last saints, of those who in spirit of abnegation and surrender, of renunciation and sacrifice for their Heavenly Mother and Her Beloved Son, offer their lives so that, through silent pain and inner recollection, the souls may be liberated in different parts of the world, in different continents, in order to exit the profound dream and inertia, the spiritual somnolence and the blindness that does not allow them to see the light. And that, by this sole act of love and surrender, they will awaken someday and they will feel the call inside of them, as you also felt it at some moment.

They will feel the need to serve and to get out of themselves as you did it at some moment, even though you are still learning it through transformation persistence, and faith.

Today is a special day for your Heavenly Mother because many more lives receive, in spirit, an extraordinary Grace that is not palpable to the eyes of men, to the feeling of humans, or to the vision of those who are concrete; but it is profoundly internal, I would say immaterial; that descends from above to this world, to the inner universe of each being and brings the new, what it renewing, what opens the consciousness to the unknown, to what is imperceptible and dwells in the Heart of God.

The angels of the Universe help in this impulse of this day, bringing among their hands the Treasures of the Father, precious spheres of light full of many codes that are sown in those who sleep and in those who will be about to awaken in these coming times.

In this way, children, I show you that the task is deeper than it seems and that each encounter with Me is a moment to enlarge, even more, the Plan of God in humanity and that the divine and spiritual fruits may be available to the souls that need them the most and that still have not recognized their mission in this humanity.

These Graces of Heaven and of this day, come today for those who know and for those who do not know.

Because in the Spiritual Universe of each being it is possible to do everything, because the Laws flow there, the Principles manifest and the different Rays of the Universe are shown, which foster in the souls the awakening of the consciousness and the defeat of human illusion so that the new apostles may be born, so that the new apostles participate in the last Redemptive Supper of Christ at

the moment of His second return to the world.

All that is lived at this time is a preparation, My children.

Each moment offered by you is a Grace. Each step given is a new opportunity that presents for souls so similar to yours.

Like this a great network of light is woven and brings to the world a greater rescue, although most of humanity does not respond as God needs; but everything is possible by those who offer themselves and because your Heavenly Mother is here, bringing you what is new from the humility of Her Immaculate Heart.

This opens doors to new events; this brings to the hearts a clear truth of knowing that there is still much to do and that the world awaits the help of more hearts and more servers, especially projected on the youth, who are the ones who will help to sustain the world, although it does not seem so. Because they have come thus, at this time, to be able to move the Plan forward with the impulse of the Hierarchies of Light, with the company of the Sacred Hearts.

Children, everything can still be renewed and many more can follow the path of holiness, even if they have not thought about it for their life. Holiness is surrender for something greater, it is service for something unknown, which is not palpable. Holiness is to say "yes" at each moment and before any circumstance. Holiness is to love your fellow beings as they are and not to have preferences for anything, without expecting any result and without expectations.

This is the holiness that God and His Heavenly Messengers live, and the holiness that the Father expects to be able to see in His children on this planet.

Therefore, from time to time and from century to century, there have been saints, souls that have incarnated in humanity for a greater service, even if they did not have total consciousness of this. Because everything is part of a greater Purpose, of an idea thought by the Father for the evolution of His children in degrees of love and service.

This helps to sustain the lost humanity, the lives that are blind on their spiritual path and all of those who are fallen and will need to rise from the abysses in order to be able to see the light on the large horizon of Christ.

Children, today I will be like this with you, because the Father wants it so, so that in this school that I invite you to live daily and, through this Work you may learn in simplicity to recognize the Supreme Will and not to force changes of events, and to learn to read in everything that happens around you on a daily basis in order to be tuned with the Highest so that you may understand it all and thus, carry the Plan forward.

For this reason, today is a special day, not only for the incarnation of your spiritual Mother on Earth, but for all that this means in the inner plans and in the Supreme Consciousness, because in the same way, children, each one of you is important for Me and above all, for God.

A destiny is written in your lives. A purpose is still to be manifested and expressed upon the surface of this planet and for the renewal of times.

Continue walking with Me through this burning love in the heart for the Work of the Divine Messengers, which is the Work of God, alive and intact in the Universe.

I encourage you to deepen the apostleship through the next mission in Europe and Africa, which, this time, as in other moments, can be followed by everybody at each moment of prayer for the nations of the world, at each moment of recollection and introspection, to be able to follow the Will of God, by means of each part of the Purpose that is gradually fulfilled with the help of My children and in the company of your prayers.

After thirty years of instruction as a spiritual family and as a people of this planet, you were called to follow the same steps that Moses followed with the ancient people of the desert, but this time with more commitment and with more conscience, knowing that everything you offer will be a treasure for God, preciously considered by His Divine Spirit and by His precious Source.

Your lives, as so many other lives that are consecrated in this world, have come to testify that it is possible to live the Plan of God and to make it part of you every day.

With this Light and this Love that spring from My Heart, I bless you and give you the impulse to follow the new through the history that Christ is writing in the hearts that have awakened and in the hearts that will awake.

Today I leave My Rose of Light on the heart of your mother, so that this Love that comes from Me and directly from the Source, may reach those who need it most, under the Spirit of motherhood and the acceptance of all things.

May this Spirit of Love reach all the mothers on the Earth and especially the mothers who have removed the children from their wombs for fear to fail.

May all lives be reconstructed and may the lives that were not born be contemplated, so that they may reach Heaven and return to start a new universal trajectory someday.

I thank you for responding to this special call and for accompanying the steps of the Divine Messengers in the lands of Europe and the Middle-East.

In the name of the Father, the Son and the Holy Spirit. Amen.
