DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF FLORIANOPOLIS, SANTA CATARINA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Peace is the most important key for the upliftment of the human consciousness in these times.

If peace is united to prayer and song, an extremely potent bridge of union between the material universe and the spiritual universe is built.

This bridge of union, raised and erected through the praying and the singing that fosters peace, reaches souls that have lost hope and motivates them to keep living, and touches everything that needs inner and spiritual healing.

Peace in the world can only be established through the prayer and the singing that is offered to God so that He, as a Merciful and Compassionate Father, may change the destiny of the whole human race.

Each time you offer a new prayer or a new song, you create the spiritual condition for powerful flows of grace and mercy to descend over the world and over humanity.

Singing especially opens the Heavens, because the voice is one of the greatest instruments that the Father created for His children to praise Him and, with simplicity, to unite with Him.

I encourage you, in this time, to keep deepening into this practice so that more grace and more mercy may reach humanity.

I thank you for offering your voices to God!

Who blesses you,

Your Mother Mary, Rose of Peace
