DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Contemplate, in the center of the Universe, in the heart of Creation, the Creator Father in His silence. Source of all sources, Light that generated all the Lights, silence from where all sounds are born. The Heart of the Father observes the Earth, waiting for the awakening of humanity, which in majority lives indifferent to God.

The Heart of the Father silences with Love, a Love that you do not know in this world but that you are called to live.

In order to find the Love of God you need to seek It beyond your human lives; you need to stop and look within for the bridge to the Heart of Life, which is God.

Know that His silence has more meaning than all words because, even if they were uttered altogether, they would not express what the Father is.

Know that the silence of God expresses something unique for each being. It is not enough that God speaks to your brothers; He aspires to utter His silence to each heart so that they feel Him, live Him and know the existence of God and His Love through their own experience with Him.

To live God transforms you, heals you and renews you in the true sense of your existence. Therefore, children, rather than seeking philosophies and sciences, before anything, seek God. In the humility of prayer and in the truth of inner silence, you will find Him. And thus, Face to face, you will fulfil with His Will and you will receive from Him the Love that you must express on Earth.

Who inspires you to seek God,

Your Father and Friend,

The Most Chaste Saint Joseph
