DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE CITY OF FLORIANÓPOLIS, SANTA CATARINA, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

With your heart, remain looking at nature and simply contemplate the Divine Presence in all that is life.

Let the Wisdom which was emanated and transmitted by God, understood by the indigenous peoples, and that is held in the elements of nature, also be able to reveal itself to your heart. This is the time for the human heart to know the Truth of God expressed through all the lines of true knowledge, coming from the Heart of the Father.

Nature is a source of Truth, guardian of the Wisdom of God and of the Sublime Laws that govern the life and evolution of beings.

Be silent before the expressions of nature and let them speak to your heart and teach you a way of understanding and experiencing the mysteries of the Universe and the secrets of life on Earth.

Nature fully lives a union with God and the love of the Creator; thus, it is capable of not only expressing beauty, but holds in itself the Truth of God, His Laws, and the record of the story of life, which reveals to beings the path of return to the Heart of the Father.

Thus, stand before nature, child, and let it teach you to also be a mirror of Creation so that you may learn to be in union with God and to discover, within yourself, the Divine Presence.

Your Father and Friend,

The Most Chaste Saint Joseph
