DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Today, for a moment, focus your attention and inwardly contemplate the mysterious but revealing Star of Bethlehem.

Concentrate your gaze and your prayer upon this ancient star of the Cosmos, which announced the arrival of the Divine Incarnation of the Firstborn Son.

Concentrate your ardent love upon the occult significance and on the mystery of the Star of Bethlehem, as well as on all the impulses of light, of peace, and of love that this star of the Cosmos brought to the human race.

Concentrate your mind and your heart upon this physical mystery of the Universe and upon all that it fostered and generated during the three preparatory days, before the arrival of the Redeemer.

Concentrate your devotion upon the mystery of the Star of Bethlehem and upon all the movement that it brought to Earth in that time, so as to bring order and reposition it within the universal Purpose.

Concentrate your attention on the rays of the Star of Bethlehem and upon all that it awakened in the depths of the inner levels of human beings, as well as upon all that it continues to awaken throughout time and the generations.

Concentrate your attention and your love upon the immovable Star of Bethlehem because, although it is no longer visible in space as it was two thousand years ago, the power of this star of the Cosmos represents the doorway of revelation for humanity.

May you find an inner guide in the Star of Bethlehem, just as the Kings of the East did by contemplating the sacred Star of Bethlehem.

I thank you for keeping the Mysteries of God in your heart!

Who blesses you

Your Master, Christ Jesus
