DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Find the center of your being by meditating upon the Truth and on the divine presence. Do not let the forces of chaos confuse your mind and conduct the purification of your bodies according to their condition of confusion and evil. Seek the center of your being in silence. Place your consciousness in the Cosmos, in the Creator of all things.

The powerful currents that come for the transformation of the Earth have already started to descend over the planet and over beings, and everything within and outside of humanity will intensify.

Let this intensity touch your being and find you in peace so that its action within you is transformative, strengthening the best in you and giving you sufficient inner strength to purify and purge what is of the old humanity.

If your strength is consolidated in your human aspects, you will suffer a lot, child, because the energies that are descending into the world will pull your human condition out by its roots and everything that was based on it will be destabilized.

So then, breathe deeply, become silent and seek the Consciousness of God. Visualize the stars inside of you, and allow the Truth to gain strength within you so that you know it is beyond any experience lived on Earth, and it is there, in the Truth of God, where your consciousness and your heart must be.

The world shakes and your heart shakes with the world. For an instant, halt the flow of your thoughts and make your heart peaceful so that the world may become peaceful with you.

Everything is a question of placing your consciousness in the right place to go through this transition, being a peacemaker rather than someone who needs peace.

Your Father and Friend,

The Most Chaste Saint Joseph
