DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Wisdom is a gift that comes from the very depths of the Heart of God. It was with Wisdom that the Creator expressed the manifestation of His Spirit as a Creator Source for Life.

Wisdom is a gift that unites you to the Divine Purpose and leads you to think within the Thought of God and to feel within His Heart.

Wisdom causes souls to read within the sacred books of the Divine Plan and thus, although their minds are not aware, their hearts, which are bridges between the soul and material life, can definitely grasp and feel the Divine Will so that they may lead their lives according to that Will.

Wisdom comes to the world through Grace and Mercy, and crying out for that Grace, you can achieve it. However, children, it is granted to you for a reason. To receive the gift of Wisdom, you must be pure of heart and free of personal intentions and self-will.

Wisdom descends upon those who make their lives available to God and offer them for the fulfillment of His Plans.

In these times, Wisdom is no longer just a divine gift that the soul receives to accomplish a spiritual task. It is a necessity of the human consciousness because it will unite you with God and will allow that, in the depths of your beings, the bond with the Creator will never be lost, no matter what happens around you.

Therefore, children, cry out for the grace to receive the gift of Wisdom in your hearts. Offer your lives to God so that He may make them instruments for the expression of His Will.

In a time of profound ignorance, indifference and inner confusion, be instruments and vehicles of Divine Wisdom on Earth.

Hearts need guidance to reach God and, until everything happens, until the return of the Redeemer is a reality, wise hearts available to God are needed to be the light of the world in times of darkness.

Your Father and Friend,

The Most Chaste Saint Joseph
