**WEEKLY MESSAGE,**

TRANSMITTED BY THE BLESSED MOTHER OF JESUS TO THE VISIONARY SISTER LUCÍA

Strengthen yourselves, little hearts, strengthen yourselves.

To those who are ready to walk is shown the path, and they are able to glimpse it until the first bend, after that they will not know unless they arrive there.

To those who are not ready, they are shown those who are walking, and, even if their eyes may not manage to perceive the path, they follow with faith those who walk with firm steps and serene gaze to the goal to be achieved.

My littlest children, for all of the creatures of this world the Lord has a special Plan to manifest with the aid of His tireless Messengers, but this Plan depends, above all on the disposition of your hearts.

As many who have said "yes" have already perceived, the Plans of God are totally unknown, surprising and celestial. The one who accepts to take the steps under the permanent guidance of God knows, through living, that they are walking under Laws that are not from this Earth, it is like living in a world that is within another at every moment.

To this step all of My children are being invited, to live under Greater Laws that will lead them to feel that their feet no longer touch the Earth, but upon some place that they do not know, another Earth.

Those who do not understand what I say, I call them to experiment living the unusual, the unknown, the mysterious, the celestial and for this you must elevate the heart to this God who constantly observes you and who waits for an answer, positive, firm, with the decision of the spirit and the will of the soul.

If you do it with purity and sincerity and if you answer one after the other the indications sent by God through the events of life, you will soon be able to realize the immediate change of your hearts and of your existence.

But for this to happen, My little ones, it is necessary that you know how to read the events of life and that you know how to see that God speaks to you directly through these events.

Whenever a call from God arrives before your hearts, do not turn your face or close your eyes pretending that the Lord does not speak to your heart, because you only deceive yourselves, because God knows the deepest intentions of your hearts, of your souls and of your spirits, matters created by Him in the Celestial Universe.

To all who have already said "yes", be ready and willing to renew on each day, at each minute, at each second, the commitment that you have assumed with God, because the current times are so accelerated and your own consciousnesses are so unknown to yourselves that you must confirm

yourselves before God always, sealing at every instant this eternal commitment, without ever thinking at any moment that it has already been done, because in this way you will be able to reconfirm yourselves before God and to strengthen the bond of your hearts with Him perpetually.

I thank you for accompanying My Maternal Heart.

Mary, Mother and Queen of Peace.
