Daily Message received at the Marian Center of Aurora, Paysandu, Uruguay, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesús

If everyone bowed down at My Feet, just as you do, many inner and external situations would not happen, or through the intervention of My Love, they would already be resolved.

To bow down before Me is not to flatter me, but rather, to greet the inner Christ that exists between you and Me.

To bow down at the Feet of the Lord means the remission and forgiveness of sins, it means a new inner opportunity that arises in order to consciously transform and elevate the consciousness.

To bow down before Christ means to know and to unconditionally obey the Hierarchy, it means to unite with it under any circumstance or condition.

However, the majority does not bow down before the Lord; not for Me, but to be able to recognize the Living God who is above all of us.

To not bow down before Me means wide and hard resistance, a lack of humility towards oneself and towards the neighbor, it means self-pride and uncontrolled human power.

But to just bow down before the Lord is to understand and accept something that is beyond this Universe, it is to merge with Divine Purpose in spite of the distance between the planes, it is to say "yes" without any fear and it is to open oneself to redemption.

I thank you for responding to My requests!

Who blesses you always,

Your Master, Christ Jesus
