DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Contemplate life around you and give thanks. Thanks because in everything you have the opportunity to love and therefore, to fulfill the Purpose of God within you.

On Earth, child, the Purpose of the human being is unique: to renew the Love of God and to allow the Creator to recreate and to renew His Creation through His Love. You did not come to Earth to experience the things of the world, your mission is not to do this or that thing, to have this or that service, to enter this or that path. Your mission is to love, and everything in your life comes to give you this possibility, to live love.

It is love itself that will show you the path of return to the Heart of God. It is love itself that will reveal to you all the sciences and wisdom. It is love itself that will lead you to be a worthy child of God.

Love is your mission in this world, and you can find the possibility to love in everything. Therefore, each new day thank God for being where you are and for fulfilling His Plan where you are meant to be. And just love, love all the challenges, love all imperfections, love all difficulties, love what you do not understand, because in being loved it will be revealed to you.

The secret of this life is the constant effort to experience love amongst beings, with the Kingdoms of Nature and, above all, with the Heart of God.

Therefore, go, child, and through gratitude open the doors of your chest so that you may learn to love more each day.

Your Father and Friend,

The most Chaste Saint Joseph
