DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN BAHIA LOPEZ, RIO NEGRO, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The radiation of certain Mirrors can quickly alter and modify the organic and spiritual composition of the human being.

This is so because the Mirrors, which are great energy plants that reverse processes of resistance or spiritual stagnation, mobilize planetary or personal situations and also work within group consciousnesses.

Thus the Mirrors work in various levels of consciousness, bringing the human being into contact with higher voltages of vibration and harmony.

Therefore, the Mirrors are recognized as transmitters of divine information, and at the same time, they generate the vibration elevation of certain regions or situations of the planet.

The Mirrors are bearers of luminous codes and impulses which, each time more, access increasingly higher states of consciousness.

The Mirrors are capable of preventing a risk or emergency situation on a spiritual level.

The Mirrors connect human beings with greater vibrations of light and love.

I thank you for responding to My Call!

Who blesses you,

Your Mother Mary, Rose of Peace
