DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SAO PAULO, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Dear Children,

Today, from the Universe, your Heavenly Mother contemplates the planet, the immensity of its beauty but also the innumerable errors committed by the blind humanity.

Today your Heavenly Mother contemplates the planet from the Universe and feels an immense Love for this creative planet, as well as for all that it holds within itself.

Today your Heavenly Mother contemplates the planet from the Universe and sees the beauty of its existence, but also the grave outrages that the human beings commits against life, family, the spirit of religious life and good.

Today your Heavenly Mother, with open arms and extended hands, contemplates the planet to radiate to it, to bring it relief from its pain and its immense agony, which the majority of humankind does not even perceive, through pride or indifference.

Today your Heavenly Mother radiates to the planet to pour out codes of hope, of healing and of redemption so that the great doors of the Mirrors of Mercy may open and permeate souls with their codes of love.

Today your Heavenly Mother invites you to contemplate the planet from the universal dome and radiate to the world all the love and inner healing it needs to have an opportunity.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
