**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Taking a step in love and representing God on Earth means to enter into the Divine Consciousness and abandon your own plans, wills and goals, to allow the Creator to show you His plans, His Will and His goal, not just for you, children, but for the human consciousness.

Taking a step in love and representing God on Earth means to raise one's own comprehension of life, your concepts and patterns, to enter into a universal and divine pattern of life in which only the Love and Wisdom of God becomes your guide.

Begin, then, to observe life on Earth as a whole, and each heart, as well as each being, will gain importance in your lives, because the Divine Will embraces all Its children equally.

You will learn not to compete, but to help; you will learn to renounce, so that others can grow; you will learn to silence, to find God; you will learn to live sacrifice, to repair His Heart and, above all, you will learn to love, to renew His Love.

Your Father and Friend,

The Most Chaste Saint Joseph
