Daily Message received in the Marian Center of Aurora, Paysandu, Uruguay, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesús

To separate from Me means to separate from the Truth. It is the same as breaking the consecration with Me, it is to lose the closeness of My Heart to the life of the being.

There are souls that have come to the Earth with a spiritual commitment which is undeniable and goes beyond every human moral or internal situation.

When this alliance between the soul and My Heart is broken, everything which surrounds the world, its most inexplicable fears, frustrations and deceptions of an apparent well-being, come toward the life of whom, by their own free will, has separated from Me.

In truth, to have the courage in this time to take such action forward means to have not accepted, experienced nor participated even once in the codes that I had once poured out and gave to those who before followed Me.

In this sense, it is the action of the soul itself that prevents the intervention of My Divine and Unfathomable Mercy.

There is no being on the surface of the Earth that, after having abandoned Me and after having blatantly abandoned their brothers and sisters, can have peace or joy in such a crucial moment like this one.

This is the time of giving all or retaining all. It is the time when souls easily put their spiritual path at stake for feeling misfit.

Those who in truth drink from My Fount shall never thirst, even if they are purifying.

This is My declaration of transparency for those who have decided to live in the Truth.

I thank you for considering My Instructions!

Who blesses you,

Your Master, Christ Jesus
