DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Seek always the states of peace and, within them, the reverence and respect for your fellow being, for life and for the Plan of God.

Seek to transform your patterns of behavior and thus elevate them. In this way, you will be of service to this humanity, so often conflicted and unconscious before their fellow being, before life and before God.

May the peace and love achieved in your prayers remain in your days, in this way, your prayer will come alive; you will make your prayer constant and eternal.

The more in harmony your heart is, the closer you will be to the Wisdom of God for the times of chaos.

Elevate your consciousness beyond the confusion of the human mind so as to know how to discern, define, guide and lead when the moment comes.

Wisdom and discernment will be rare attributes in the times of chaos, and in spite of this, human destiny will depend on these attributes and divine gifts because each step must be meditated upon, each decision must be made with wisdom, each definition done with discernment and with love, because beings will be writing the story of humanity and of Creation with their own lives.

Therefore, pray and be at peace.

Everything starts in states of peace and of union with God, because it is from the Celestial Father that wisdom and discernment arrive for finding His Path.

Your Father and Friend,

The Most Chaste Saint Joseph
