DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

With the book of your own lives in your hands, write with awareness, each new page, each chapter, each story.

With consciousness, build your own destiny and the destiny of this humanity, not in the sense of controlling your own existence, but rather in the sense of giving God permission, through your behavior, your actions, so that He may guide your steps and His Laws may govern your lives.

To write in the book of your own existence is to know that in all things the Universe respects human free-will, and even though the Lord, your Father, has the authority to transform all things with a single breath, He waits in silence for the definition of the steps of His children.

Thus, today I tell you that you must write in the book of your own life, conscious of each decision, of each definition, action, and thought, because everything that you emanate and manifest opens the way for certain Laws to act in your lives.

Life is creation and vibration. The Universe and the Cosmos move based on living Laws and Rays, which come from the Thought of God, to give life to the Universes and the dimensions.

In this time, be more aware of the Whole, of Life, of your fellow being, and in all that you may do, know that you are attracting a new chapter, a new experience to your stories and to the story of Creation.

It is time to begin to build the new life, and that begins with you being aware that the builders of this Work are you yourselves.

Your Father and Friend,

The Most Chaste Saint Joseph
