Daily Message received in the city of Medjugorje, Bosnia and Herzegovina, transmitted by Saint Joseph to the visionary Sister Lucía de Jesús

Wherever you go, try to rescue the spiritual principles with your heart so that, little by little, the sacred may awaken and reveal its mysteries.

Allow peace to dwell within you and for reverence to live in your consciousness so that you can recognize the presence of the Hierarchy in sacred places, beyond human appearances.

May your heart always be raised to the heights, united and in tune with the Divine Purpose so that, in this way, child, you may provide a service to the world, of uniting the higher dimensions with life on Earth in order to liberate what is dark on the planet by means of harmony and of the elevation of consciousness.

Humanity must enter a new cycle to approach divine reality, and that cycle is of a deeper and more true inner contact, for this is what will allow beings to discern and to take the correct steps in the coming time. Your consciousness must learn to be kept elevated beyond chaos and appearances, laid on the Truth by means of love, of silence and of prayer. Thus, you shall not only find peace, but you shall be a vehicle of this peace for the world.

Your Father and Friend,

The Most Chaste Saint Joseph
