DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE COMMUNE OF CASTEL VOLTURNO, CAMPANIA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

For the Kingdom of God to reach Earth, it will first have to live inside of beings. Open the path toward this Kingdom through your prayers, moments in which the purity of your hearts emerges and makes you know the real feelings and thoughts that a human being came to express in the world.

Pray, children, attracting peace inside of you and toward your consciousness, and afterwards let this peace expand throughout this world.

As creatures similar to God, human beings keep within themselves the potential to radiate for all of life that which is within them. The universe of their bodies, the micro-cosmos that is kept in the composition of their beings, from the consciousness to the smallest atoms, are a mirror of the infinite Cosmos.

You, children, are mirrors of the Heart of God. That which inhabits within you radiates to the world, even if you are not conscious of it.

To have a world of peace, you need to let peace install itself in your consciousnesses and establish itself in all of your cells. Pacify yourselves consciously and this way you will bring peace into life.

All that you cry out for, you can attract to the world through the transformation of your own consciousness. In prayer, you can find in yourselves the door to the Kingdom of God, and when you are able to let Him express Himself within your interior, then, children, this Kingdom will begin to expand throughout the world.

Do you understand the science of human existence?

The Creator manifested human beings to transform all of His Creation through them. The love that can be born within you, when it encompasses its genetics and expresses itself in all its atoms, can transform galaxies and universes. In the same way, when you do not live in peace, the darkness that inhabits within the beings also resonates in all of life.

So recognize the potential of your hearts, of your bodies, of your lives, and become instruments of peace and Mercy for this world.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
