DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE CITY OF DÜSSELDORF, GERMANY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

And now that the most important stages of the Pilgrimage for Peace in Europe have been accomplished, according to the Will of the Heights and because of the inner adherence of all those who collaborated in this manifestation, this is the moment of the pause, of stillness, and of experiencing an important spiritual synthesis in order to see, in the events of the last pilgrimage, the evident signs that the Hierarchy left so that the next steps may be accomplished.

This pilgrimage was characterized by all that it transmuted while going through different cities, cultures, and peoples; and also, it stood out by all that it, through the Hierarchy and the Angelic Universe, managed to deactivate that was negative in the consciousness of a people and a nation.

In this sense, the last Pilgrimage for Peace in Europe seemed that it was not going to be completed until the group unity and the unity of inner spirit, with the sincere collaboration of everyone, allowed the destiny of different peoples and nations to be taken toward the threshold of a new opportunity through Divine Mercy.

For this, the endless days of transmutation, of travels, of going from country to country, generated in an evident way the possibility for the Hierarchy to be able to increasingly embrace complex and grave situations that were compromising the continuity of certain nations and peoples on the surface.

And so, during this last pilgrimage, the Hierarchy used certain divine and cosmic instruments, such as the Great Mirrors or the Celestial Doors, so that great Light Consciousnesses, in absolute silence and meditation, could help in the process of liberation of nations, which took place through each song offered.

The mental, emotional and psychological effort on the part of the pilgrim group, within the goal of embracing and of learning the native language of each people, meant for the Divinity the possibility of the Message of God and of His Celestial Messengers to be able to reach the whole world by means of an ardent devotion and love for the Divine Hierarchy.

The commitment consciously assumed by praying for such different new nations and peoples also generated a greater opening so that, over time, the field of work can expand through new seeds of Light that will be sown in Europe, Africa and Russia.

In synthesis, the victory of Christic Love was great, at a planetary time in which hate, vengeance and conflict knock on the doors of millions of homes in the world.

And so the nations that are freed become potential mirror consciousnesses so that not only the peoples may receive new attributes of life, but also the world can be supported in this cycle by an unbreakable faith and by an unquenchable love that is born from each heart redeemed and touched by the Grace of God.

Infinite thanks to all the servers of Christ on Earth!

Who blesses you,

Your Master and Lord, Christ Jesus
