DAILY MESSAGE OF CHRIST JESUS, TRANSMITTED TO THE VISIONARY FRIAR ELÍAS

On this day of Mercy My Heart irradiates the Graces upon the souls that most need them , principally upon those who have been distanced from Me.

In this way I gather the essences for the great moment, so that all of them return to unite as one and represent the new redeemed flock, a flock on which I will count for the important hour of My Return to the world.

But now it is necessary to cultivate the seed of inner pacification because this sublime light of peace must serve as an incandescent focus that relieves the perturbation of many inner beings in the world.

By merciful prayer the world will reach peace and the victory of the Kingdom of the Father will be possible by the effort of the little beings who serve the Plan of God. In this time I call you to inner unity, I call you to the fulfillment of the Divine Purpose in every being, and for the Higher Good of the world.

Now, in this path of prayer that the pilgrims traverse, I call you to proceed through the safe path of faith and love, because in this way many more will imitate your Christic example of evolution. Above all things, remember that now and always you will be in My Heart of Love.

Under the Glory of the Father, be blessed.

Thank you for living My message through the love of the heart!

The Merciful Christ Jesus
