DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE CITY OF FRANKFURT, GERMANY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Let the spirit of gratitude permeate your heart so that you may live each day as if it were your last and, at the same time, child, know that a last day does not exist.

Understand life as a unique school of love in all of Creation and seek to experience true love through fraternity, unity and constant gratitude for all that the Creator grants you.

Let each second of your life be transformative, not only for you, but also for those around you.

Let your learning processes teach others how to seek love, and that your errors also serve so that others do not make the same mistakes, but rather enter the correct paths.

Let all of your life be in support of evolution, and that errors do not disturb you or that being right does not make you proud, but rather that all uplifts your heart and brings you closer to the single purpose of your existence, which is to love with the Love of God, renew Divine Creation through that love, and return to the Father, so that a new beginning may occur in all of life.

Your Father and Friend,

The Most Chaste Saint Joseph
