DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

The Universe within you does not hide, it merely keeps silent, waiting for its beings to turn inward to find it.

Mysteries only remain mysteries in the hearts of humankind when they do not seek them or are indifferent to spiritual life. All sciences may be revealed to you, because the Wisdom of God Himself is to be found within you. Your essence is a bridge to the Heart of the Father, to everything that He is.

There are no limits or boundaries for the spirit that untiringly treads the path of return to God. Ignorance is the self-condemnation of those who choose to remain in illusion, in the darkness of their consciousness. Wisdom is not a gift for the few; Wisdom is a virtue that is asleep in the essence of all human beings who can awaken through a sincere and pure search for the Truth.

Be pure of heart and begin to walk. Be sincere and ask the Father for the grace of being in His Heart and of living what you were created to live.

Aspire to go through the school of the Earth and to experience it fully. Aspire to express all the potential that you hold within you. God manifested each being according to His Perfection. All of you have unique virtues to express. Aspire, children, to fully manifest this truth.

Empty of human concepts, of vanity and pride that keep you attached to material concepts of evolution, you will be able to find the truth about yourselves. Divine Grace can reveal these and all things to you; it is enough that you wholeheartedly cry out and open up with your whole being.

Your Father and Friend,

The Most Chaste Saint Joseph
