DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Unite to the Love of God for this planet and you will know that it has no limits. You will know the cross was not the first nor the last offering of your Lord and Creator Who, throughout all existence, surrenders to His creatures.

Unite to the Love of God for this planet and for this Creation and you will experience for yourself the essence of surrender and of love for evolution. You will know every effort is little for all beings to have the Grace of becoming closer to God.

In His agony, Christ united His human heart to the Love of God, and even though fear and anguish sprung from His bones, gushing as blood through His skin, nothing was enough to cause the potency of the Love of God in His Heart to fade away.

His thought remained upon compassion, His gaze remained upon Mercy. After having taught humankind about the Laws and also having revealed His Justice to them, during His moment of great surrender, Christ did not emanate anything other than Forgiveness, Redemption, Love and Mercy.

That is what you must experience in these times. That is what will make you Christs of the New Time, apostles and latter day saints.

Let the world know everything that you have received. Teach your neighbor, by means of examples, about the Laws and sciences you have learned and, in the time of great trial of this planet, do not emanate judgments, but forgiveness; do not emanate indignation, but compassion; emanate mercy and do not fear. Renew yourselves and multiply the Love of God in your hearts.

Your Father and Friend,

The Most Chaste Saint Joseph
