DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE CITY OF MANAUS, AMAZONAS, BRAZIL TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

I have finally arrived in the Amazon, and as from now on, I will prepare the spiritual foundations so that after the Marathon of Divine Mercy a permanent base of work and of assistance may be established in the city of Manaus, not only humanitarian, but also in service to the Kingdoms of Nature.

The time has come, after so much suffering, for the Minor Kingdoms to feel the love and protection of human beings. Thus, a space of preservation, of care and of restoration for the Minor Kingdoms must be created in Manaus so that they may have a place of peace and of healing, to then continue on with their evolution.

Hundreds of plant and animal species need the care and service of human beings, which will be a fundamental task for this Work, founded on the principles of love and of kinship.

The assistance to the Kingdoms and to the native peoples, given by the Grace Mercy Order, will be one of relief and of sheltering in the face of a process of inequality, abandonment and exploitation.

Two sectors of work will be established in Manaus: one through humanitarian service and another through the service of the Grace Mercy Order to the Kingdoms of Nature.

I thank you for holding My aspirations in your hearts!

Who blesses you,

Your Master and Lord, Christ Jesus
