Special Message for the 75th Marathon of the Divine Mercy, received on October 3, 2019, in Manaus, Amazonas, Brazil, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesús

In the name of the Father, the Son and the Holy Spirit. Amen.

Like this sunny afternoon that illuminates you, My Mercy descends upon the world and especially in this sacred place, where God could manifest the expression of His most deep Love for humanity.

The Amazon must be a place revered, loved and respected by all.

There is nobody on the surface of the Earth that understands what exists here, because it is not only natural but also spiritual.

What God deposited for South America through the Amazon is something very important; a revelation that will come during the end of times, something that will manifest overnight, without any person, population or government being able to control it.

Therefore, your consciousness must be in the preservation of what you have, not as an ecological nor as an activist measure.

You should love the Creation because for some reason, you are here, on this school planet. For some reason you came here to learn and to be redeemed, to be able to experience the love and forgiveness that you need for this crucial moment.

You know that the world is imbalanced and also that the human consciousness is also imbalanced. For this reason, I have gathered you here, all of you, those present and not present. I have gathered you here in the Amazon, in spirit, not only to pray for peace but also for Divine Grace to protect and support the Lower Kingdoms of Nature.

If you could feel their suffering or their agony, humanity would feel it miles away, because what the Lower Kingdoms experience here, only the Kingdoms through their group consciousness understand and grasp.

Humanity of the surface was not made to subject that which God created in His image and likeness. Not only the Universal Laws must be respected, but also the Laws of Nature.

This is the time to take emergency measures, because otherwise all of humanity will regret it and I Know that those who believe to be more powerful, those who believe to be above the others, those who believe to have more freedom and action about things, they do not care.

But no one knows the coming of the Universal Judgment. No one can boast the Law because it does not belong to them.

All existence was made with a perfect equilibrium and harmony. Therefore, it must be respected and loved so that you also may be respected and loved by your neighbor and even by the Kingdoms

of Nature.

The Amazon is a treasure that must not extinguish, it is a gift of God that must not disappear due to ignorance or to the power of those who place their hands in that which they believe they own.

No one upon this planet knows the force of the elements or the power that they have. Everything that has been manifested is for living in the good and in peace. But many laws were trespassed throughout the times and the years, this is why I have decided to gather you here and come here to support and protect what is spiritually within this place, as well as the Lower Kingdoms, which are part of the life of each human being, although it may not seem so.

If the Kingdoms of Nature were not in this ecosystem, on this planet and in this humanity, the Creation would be incomplete and the evolution of the human beings would not be fulfilled. There can be no spiritual or material advancements without the presence of the Kingdoms of Nature. It is like skipping learning schools.

You must learn to perceive reality. You must love all that you have, all that God has given you in His great and infinite sacrifice.

What is left in this moment is only to pray, pray from the heart, not to pray out of duty nor out of obligation. Prayer must abound in all spaces so that at least an Island of Salvation may remain protected and supported by the Universe. An Island of Salvation that encompasses all the Kingdoms of Nature, a part of humanity, the life of God expressed in each element and in each Kingdom, as in the human being itself.

But I know that the laws keep being altered, only the Divine Mercy of My Heart and the supplications of My companions sustain the movement of the pendulum, the pendulum of the Law, because if the pendulum of the Law moved, many things would already have ended.

Only love will place you above the lower realities that the human being itself commits, day by day, oftentimes without thinking nor perceiving it.

This is the time to put the planetary situation in the heart and to do something for this situation, not only for the Kingdoms of Nature but also for humanity, for the existence and continuity of this race so that the Project does not become a failure. No being on the surface of this planet knows what a failed or aborted project means.

These are times in which spirituality must be protected and where this spirituality must be true in each being, free from alliances with other currents that are not of the light so that the true culture of the humanity of the surface may be safeguarded, like the spirituality that is lived by the native peoples, who have been a culture and a civilization hurt and exploited.

Humanity by itself is dissolving its own roots and the roots of the native peoples who still guard the essence of contact with the Hierarchy, of a contact that has kept them united and firm to express the Plan of God.

The roots of wisdom, understanding, intelligence and of good cannot dissolve from the consciousness of the human being because this is happening and you know it, companions.

Now is the moment to place upon the scales that which really matters. It is time to place in first place that which is really important for all of humanity and the planet. An example of this is the Amazon. Humanity could never live without nature, although those who govern think otherwise.

No one can challenge the Law because they do not know it, it is so far from the human reality that humanity of surface does not even know what the Law means. This is why you should respect it, love it and revere it, although it is unknown, because the Law exists for a reason, for a motive and an end, which is to maintain Universal Order among all planes and all consciousnesses.

But if the consciousness of the Kingdoms of Nature is transgressed, this Law is interfered with, unity is broken and souls begin to suffer the consequences of what they decide and what they do.

I tell the whole world to no longer blame God, and become responsible for your decisions.

Just as you must learn to evolve, you must learn to not deceive yourselves. You must be real with yourselves, true, you must be simple because in this way you will understand life, manifestation, and you will be under the order of the Law and of its powerful currents that direct this Universe and others, and in this way you will be in brotherhood, not only with the life of your neighbor, but also with the Kingdoms of Nature.

What happens today here in the Amazon is a consequence of human corruption, of a social vulnerability that can no longer hide from everyone's eyes. Therefore, think and meditate upon who you elect, because the promises of men are made with castles of sand.

The promises of God have their foundations in spiritual and non-material treasures that are eternal and that will always give you an impulse toward change.

Therefore, this Marathon of Divine Mercy is very important, it will not be just another meeting of prayer, it will be an opportunity to make an internal decision, between yourselves with God, and with His Plan.

Knowing that it is necessary to assume the situation of the planet and of its humanity, and not to ignore it nor reject it; to be willing in an unconditional way to serve and assist where it is necessary.

It is no longer you who must live upon the surface of the Earth, it must be Me who must live within you so that you may know how to represent and express Me as Christic Love.

May the power of your prayers reach the Heart of the Father and open the doors of the Heavens, not only for the Kingdoms of Nature of the Amazon, but also for those souls that are lost and obsessed by the riches of this place, may they also be considered by the Mercy of the Father so that hearts may be redeemed and receive forgiveness, so that all of humanity may be rebuilt and the force of Light and of Peace may triumph over evil.

Be consequent with what I ask of you and you will always know where to walk, because the time will come in which your love for Me will be the direction, the path and the guide that will lead you towards My Heart, during the times of Armageddon.

I thank you for listening to Me and for making the Plan of God a part of yourselves.

May the suns shine above darkness so that the Divine Light may expand in the world. Amen.

In the name of the Father, the Son and the Holy Spirit. Amen.
