DAILY MESSAGE OF MARY, MOTHER OF THE DIVINE CONCEPTION OF THE TRINITY, TRANSMITTED TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Dear children,

Today I invite you to sow My Peace in your hearts so that, as small Lights of My Immaculate Heart, the world may be converted. We must pray and this must be a remembrance for your lives here on Earth.

Remember, My children, that we are in a time of transition to a new time that will arrive to all souls that are thirsty for Christ. Therefore, little ones, the constancy of your hearts in prayer will be important. I radiate to you from the Heavens My Divine Love so that your hearts may walk towards My Kingdom of Peace.

But first, little creatures of the Lord, seek the Kingdom of Peace in prayer. Thus you will allow many of My children to be touched by My Merciful Love in this last hour. I call you on this day to the upliftment of the heart; it is a special permission that I am giving you so that your souls may closely glimpse My Kingdom of Peace.

But to get there it will be necessary for your hearts to pray with the confidence that they will, for an instant, be able to touch with the soul the Doors of Paradise.

For this reason, My little ones, unite your hearts to each other. This is important for you and for our beloved Lord. The world is separated of heart and soul; few are the souls that propagate My fraternity in this final time.

Also, My children, we must pray to unite the blind hearts that are distant from the true Merciful Love of My Son. As His coming is on the cusp of few hearts, since few truly wait for Him, we must pray without ceasing so that many of My children in this last hour of the world may be radiated by the Light of My Immaculate Heart.

On this path, which you will decide if you will travel with Me, I will be able to say with certainty on which souls I can count for the hour of the rescue, for the hour of the salvation of hearts.

Let us trust in the Lord. He deserves it. In the Merciful Love,

Mary, Mother of the Divine Conception of the Trinity
