MESSAGE FOR THE APPARITION OF MARY, ROSE OF PEACE, TRANSMITTED IN POTRERILLOS, LUJÁN DE CUYO, MENDOZA, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Once upon the eternal time, there was an infinite and loving purpose of the One; He wanted to reflect His experience through a Creation formed and constituted by many types of life.

In this way, first the universes, its galaxies, suns and stars were created, then the nebulae were created and, within them, the dimensions and the planes of consciousness had already dwelt.

Later, when this first Creation had matured, in a vibratory and spiritual sense, the Father, with all of His Love, fixed His gaze in a point of the Universe, where a planet, which had shone the most, generated a greater spiritual condition that was capable of sheltering and receiving a Project.

For this, the Father asked this treasure of the Universe, which was spontaneously expressing itself, to receive one of the most special elements and fluids of the Creation: the water element, so that that which would happen later could have the necessary support to develop and evolve.

This element would bring to the human consciousness, which was the last fulfilled Project, the inner and also material capacity to remember its origin, not only since the maternal womb, but also its superior origin.

The water element is the fundamental basis for the emotional and sentimental balance of the human being. Therefore, in the creation of the planet Earth, the Father wanted to grant to His children the greatest quantity of oceans and seas so that they would not feel the spiritual disconnection from the maternal womb.

So the human Project was accompanied since the beginning and has been the most privileged genetic Project, because this very project, in order to be corrected and redeemed, received the incarnation of the Son of God, so that the human race might find a direct path along which to return to its true essence.

In this way, other human beings offered for the Project to last and achieve the greatest degree of perfection, which was possible through everything that Christ taught, which was the path of Love and Forgiveness.

For this reason, all human beings, under any condition, have the possibility, within the whole Universe, to live and experience Love in a direct way and without great efforts. A Love that comes from the spirit, a Love that transcends errors and that makes peace, that expands the consciousness and opens the inner senses to consciously live the Plan and the Will of God.

This small blue planet, within the Creation, is the favorite school, where other universal consciousnesses can learn about how the true Love for the Creator, for the Supreme Father, can move events and grant miracles of life and of redemption.

The key lies within living it and in trusting in the power of the Greater Love.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
