DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN PUNTA NEGRA DE PORTEZUELO, PIRIÁPOLIS, MALDONADO, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The great Universal Consciousnesses gather together in space time to collaborate in the liberation of the planet and humanity.

For this, during these days, these great Universal Consciousnesses visit the oceans of the world to relieve all the creatures that inhabit them, and to spiritually heal the wounds caused by the participation of the human being in the contamination, the mistreatment, the exploitation and the chaos generated in various marine species.

In this sense, the great Universal Consciousnesses, in their subtle aspects of Light, cleanse and purify the oceans, because the greater consciousness of the oceans also suffers from all the adversities caused by humanity throughout the course of time.

The great Universal Consciousnesses unite in light and in spirit, in love and in solidarity, so that all this critical situation of the oceans may be alleviated and, for all that is created, may bring renewal and peace.

In this way, the oceans are assisted and new inner principles are placed in their soul to make humankind of the surface feel the importance of their care and protection.

It is for this reason that, in the youngest, an interest and an impulse for the care for the planet is awakening, so that certain adverse currents that manipulate the human being may be discharged through the stimulus of Love and Christic Light, and all may be regenerated.

I thank you for keeping My Words in your hearts!

Who blesses you,

Your Master and Lord, Christ Jesus
