DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE Sacred Kingdoms Light-Nucleus, BRASILIA, FEDERAL DISTRICT, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The Evolutionary Laws of a Light-Nucleus

1. To obey the Divine and Spiritual Hierarchy under any circumstance, fully trusting in the guidance and direction of Their cosmic impulses.
2. To recognize that a Light-Nucleus is a perfect extension of the mother-cells of the Light-Communities, and that the Nuclei must represent the bridge that servers from different places of the world will cross in order to concretize their awakening.
3. To keep vigil of the sense of purpose and existence of a Light-Nucleus, having a rule not to outrage the Christic Principles that it holds.
4. To eradicate competition and judgments so that the channel of the Hierarchy may not close within the scope of the task of the Light-Nucleus.
5. To inwardly and mentally allow for manifestation to arrive, experiencing infinite gratitude for all that comes, be it little or a lot, sufficient or insufficient.
6. To watch over the virtue of a peer so that their personal mission may be accomplished and they may contribute their different impulses to the group consciousness.
7. To not discredit group life, knowing that community life expands the field of service of one's own consciousness.
8. To not alter the form and the archetype that the Hierarchy establishes so that misunderstandings and disharmonies may be avoided.
9. To bring love for the sacred so that the Nucleus may also become sacred in its material and spiritual aspect.
10. To not transgress or violate the principles of the Brotherhood. Work on transparency and truth so that appearances and comments disappear from the integrating field of group life.
11. To hold the presence of the Hierarchy and Its Law as a premise so that no setbacks or drawbacks may occur among the members of a Light-Nucleus.
12. To give thanks for the impulse and the presence of the Divine and the Cosmic so that among souls there may awaken gratitude, value for that which exists and fraternity among consciousnesses so that the human culture of discarding may be eradicated among the members and acceptance, maturity, discretion and the responsibility of consciously assuming a Light-Nucleus may be what rules.

If these principles and rules are applied, the members that are or will be a part of a Light-Nucleus will learn new things, and will not waste time or space, helping the Hierarchy with everything that They must establish in the end of these times.

I thank you for placing these principles in your hearts!

Who blesses you,

Your Master and Lord, Christ Jesus
