DAILY MESSAGE OF CHRIST JESUS, TRANSMITTED TO THE VISIONARY FRIAR ELÍAS

Dear companions of the path,

There is no greater power that I have left for the world than the merciful prayer, that which unites spaces, places and nations.

Today, those who may dedicate space to this important spiritual exercise will receive from My Heart the gifts that will allow them to open the doors for the inner healing of the heart and of the soul.

As you have asked Me, all the most needy children are already in My Kingdom and in My Eternal Heart. I ask you to carry on praying with fervor, love and dedication so that the fruits of the merciful prayer may open new paths for those who in this time have condemned themselves to the fire of hell.

In this moment the Fisher of souls is traversing the places in the world that need an important spiritual and divine help. In My Basked of gold I collect the prayers of those who offer constant joys and blessings to My Sacred Heart.

Now, in this hour of Divine Mercy the clocks of the world are detained so that the true time of My Divine Mercy may descend in Glory and in aid for those who most need.

I only ask you to be persevering as was Sister Faustina Kowalska until the end of her life on Earth. Join forces from the heart through the union between your beings because only in this way you will give permission for some events to change.

It is time to swim in My Ocean of Repairing Graces; it is time to raise the flag towards the High, the flag that will confirm before evil the victory of the Christic Life. It is time to only act through the pure love of the heart. You need it and the world too.

Under the Eternal Grace of God, be blessed.

Thank you for always seeking the Eternal Flame of My Heart!

Christ Jesus
