DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN WEED, SISKIYOU, CALIFORNIA, UNITED STATES, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Enter into the celestial spheres through the adoration of the Eucharistic Body of Christ. Let the Bread be revealed as a consecrated part of your Lord and find the mirrors and the portals within It.

See your essence reflected within the One who gives Himself to be adored, and, in the silence of your heart, experience the revelation of the Covenant, always new and eternal, sealed by Christ, so that your consciousness may transcend the human condition and live His Divine Purpose.

To deeply adore the Eucharistic Body of Christ is to experience the revelation of the unity between God and humankind, between the infinite Cosmos and the microcosm within you. This is where the truth is revealed, where the already torn veils open, like the curtains of a theater that has come to its end, and the characters cease to exist so as to show their true faces.

Not only do you contemplate and adore the Eucharist, child, but also, as a spiritual and divine magnet, let It come toward you, and you will find that portal to the Heart of the Father, the Son and the Holy Spirit.

Then, upon entering, you will be in the eternal Time of God and be able to recognize who you are.

In the Sacred Eucharist, contemplate the Celestial Church of your Lord. Let It reveal that which is sacred within you.

In this way, understand that there are infinite mysteries, not only in what is hidden and in the silence of the invisible dimensions of life, but also, child, in that which was given to you as Grace and ceremony; furthermore, in your own being, in your own body, soul, spirit and heart; there are mysteries that you must unveil.

In the Sacred Eucharist, contemplate the doorway that leads you toward this celestial revelation and where mysteries no longer exist.

You have My blessing for that.
