MESSAGE FOR THE APPARITION OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF TUSAYAN, GRAND CANYON OF COLORADO, ARIZONA, UNITED STATES, TO THE VISIONARY SISTER LUCÍA DE JESÚS

From the beginning of the manifestation of life, My children, in the most pure and profound Thought of God, when He was gestating the Project of this humanity, within it was contemplated the existence of the original peoples; those peoples are called thus not only because they gave origin to the civilizations of this world, but also because, from the origin of life, they were thought by God to maintain the union between Heaven and Earth, union among all Kingdoms of Nature, union between the surface of the planet and the subtle worlds.

The original peoples, beloved children, are those thought by God to be the doorkeepers of the sublime worlds, of the superior realities where the sacred dwells, where beings are invited to return to their Origins in the Celestial Founts.

It is in this way that, from the beginning of humanity and up to today, the Divine Hierarchy has impelled the original peoples to find their purity and return to the Purpose that God manifested for their lives at the beginning.

Upon creating this planet and each being of this Earth, which is the bearer of a particle of the divine essence, your Celestial Father created not only the Kingdoms, the elements and the human being, a fruit of the clay consecrated by His Divine Breath. God also created subtle realities, invisible to the human eyes that do not seek with sincerity the sacred within their lives.

These subtle worlds maintain, within the planet, the Divine Purpose. Within them, communion with all kinds of life is lived; within them the dimensions unite and there is no danger, because those who enter there live pure in heart and in spirit, and only aspire to fulfill the Divine Will and Purpose.

Those who enter these subtle worlds, My children, have been divested of their personal wills and from their human condition of impurity and degeneration. In this way, their hearts find the path to express purity and unity with the Divine.

These subtle worlds are safeguarded by nature, by its strength, beauty and harmony. In the invisible of the lakes, seas, deserts and mountains, they hide, not only to sustain the planet, but also so that, through the greatness of the expression of nature, those who arrive there can feel that something more dwells there; that a sacred mystery lies hidden there, and it is as if Heaven were closer to humanity and God could express Himself.

Throughout the times and the history of humanity, many were the peoples who could enter these subtle worlds with all they were because, while humanity, in other parts of the Earth, lost its purpose, these peoples found it and deepened into it, not only through science and wisdom but, above all, through love for the sacred and divine and through respect for life and nature.

These were the Keys that allowed these peoples to live the Science of Transfiguration. And, just as My Son had once revealed It to you on Mount Tabor, they also could recognize their true face,

illuminate cells and atoms and allow, not only for their heart and consciousness to vibrate in another more elevated level, but also their more material part. This part, which today seems so dense, had elevated and became transfigured in ancient times.

Through the simplicity of the heart, the original peoples discovered that the same solar essence that they contemplated and adored in the infinite sky dwelled within them. And, in this way, they lived a profound union with God, as they could understand Him.

Upon illuminating their cells and atoms, upon letting themselves be permeated by the light in their souls, these peoples attained the same vibration of the subtle worlds, and thus could not only see them, but also enter and participate in them, as representatives of humanity.

In this way, they became Guardians and Doorkeepers of these subtle dimensions, which up to today hide within the planet. Some of these peoples left upon the surface traces of their history and life, and then disappeared. But others, My children, were never known by humanity.

Today your Divine Mother comes to this place, sacred to Heaven and Earth, to reveal to you a history and, more than that, to impel your souls toward the quest for purity and for the sacred.

The time has come to unveil the hidden mysteries in the history of humanity, not only to abandon ignorance but, above all, My children, to embrace purity. And in the time to come, when the Earth will be elevated in its vibration and conducted to a new time, a new reality, may your hearts and spirits be ready, not only to see, but to participate in this sublime life.

Seek the purity of your hearts, seek union with life and nature and, just as today I reveal to you many mysteries, other truths will also be revealed in your hearts.

I bless you and thank you for coming here and for being open from the heart to the revelations that God brings to you at this time.

Your Mother Mary, Rose of Peace
