**Daily Message of Mary, Mother of the Divine Conception of the Trinity, transmitted to Friar Elías**

My children,

Remember today that the great communion that exists for the world and for all souls is the Sacred Heart of My Son. In Him springs the Fountain that repairs all hearts and that is the infinite way to the conversion of the heart.

In the Sacred Heart of MY Son you will find the new home many of My forsaken children search for, because they have their eyes on other places of life.

To you, My children, who have walked through the holy daily prayer, I ask that through devotion you testify the existence and the presence of My Son in each human heart. Your lives must transmit the example of a true conversion, through prayer and consecration to the Most Sacred Heart of Jesus.

If you gave an example of a life converted and supported by the love of Christ, many of My children who are far from this truth and this Christian feeling might return to the arms of the Redeemer.

Because of this, dear children, daily union with Christ strengthens you as souls and as existence in God's Plan of Love. The good and simple example of surrender to Jesus will allow you to shine as stars during the nights that will come to purify the absurd world.

The compassionate ears of God are observant of all the supplications of the pure hearts, those who think of the salvation of all for this time.

As the new flock of Christ, renewed in faith and in consecration to My Immaculate Heart, today I ask you and call to convert yourselves into real and true Marian banner of prayer, so that as a legion of My Maternal Heart you may build the restored and redeemed one heart in the humanity to come.

One only heart of love. One only feeling of brotherhood. One only goal in all My children: Fraternity.

Thank you for answering My call.

From the Light of the Infinite and merciful Heart of Jesus.

Mary, Mother of the Divine Conception of the Trinity.
