**DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MUNICIPALITY OF MILLE-
ISLES, PROVINCE OF QUEBEC, CANADA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO
CORAZÓN DE JESÚS**

When Instruction and Knowledge enter correctly into the consciousness, what we call an alternative movement of information or purification spontaneously takes place because, as something new and evolutionary enters, what is old and crystallized is expelled by the consciousness itself, and this makes it aware of the transition that it may be going through.

The Instruction that is received brings an impulse with it that comes to replace a hostile situation with a harmonious one.

Knowledge will work in the consciousness with all that the soul allows and, in this way, the process of substituting old habits for new habits will take place, those that build the true being and allow the awakening of virtues and potentials for the giving of self that the soul itself holds.

In this way, Knowledge comes to prepare the emergence of the new humanity.

Instruction will not only strengthen the faith of those who believe beyond themselves that the Universe is truly wise, but will also bring the Grace of constant renewal and, in this constant renewal, the building of the new being, which will finally be free of all tests and obstacles because their love for Knowledge will awaken reverence and gratitude within them for what is sacred and comes from the Source.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
