DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

What to do with the divine knowledge that is revealed to you?

Place each word, each impulse, each memory within the depths of your heart and, with simplicity, be thankful toward God.

In this way, in the silence of your inner world, you allow the knowledge to change into wisdom, and the wisdom to attract new Laws that will draw you closer to God and transform you, bringing you back to what you truly are.

Reflect, child, upon each word pronounced by God to your heart. Not to analyze them with your mind, but so that the vibration that was transmitted to you may be a path of return for you toward your celestial origin and, in this way, your spirit may be strengthened in its union with universal life and everything that weighs upon you in this world may be transformed.

May your eyes be illuminated by a new light that, reflected in life, will allow you to see the colors and tones that you could not see before.

May this very divine light illuminate your inner world so that, in its warmth, your soul finds peace and, in its clarity, it finds the answers for so many questions that remained within your heart.

May gratitude be the master key of all your thoughts before each questioning and before each inner search.

In this way, child, you will open the correct doors that will lead you into continuing your path of ascension.

You have My blessing for this.

The Most Chaste Saint Joseph
