DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

In the face of celestial mysteries, My child, you must be like the holy women of Jerusalem, who did not need to be recognized to deeply live Christ.

It was their own silence and humility that allowed them to cross the thresholds within so that they could experience the mysteries of God, even without it being necessary for Christ to speak any word to them.

The inner depths that the holy women learned from Mary allowed them to read the Wisdom in the Eyes of Christ and to understand all mysteries with His Love.

The humility and the fidelity of the holy women were kept as a treasure in the Heart of the Lord.

In silence, they found Christ Himself in their own heart and, at the same time that they were unveiling His mysteries and experiencing a profound transformation, their inner steps and the faith with which they walked repaired and supported the Divine and human Heart of the Son of God.

The holy women of Jerusalem did not need to do great things to experience what was truly great for God. It was their exact simplicity that allowed them to learn about the Purity of Mary and to awaken this purity in their own hearts. In this way, pure, in spite of being imperfect, little by little they became one with Christ and, through Him, one with God.

Learn today, My child, about the simple but true things, of the great treasure that is cultivated in the secret of your surrender and in the depths of your heart.

And in the times of the Passion and the definition in Christ, may your spirit live the example of the holy women and, in this time, take another step, not only in supporting the Cross of God in silence, but also of knowing how to carry your own hidden cross.

You have My blessing for this.

The Most Chaste Saint Joseph
