DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Together with the angels and archangels, I am at the foot of the Cross of Christ, gathering all the Blood and Water poured out for the redemption of humanity and all Creation.

The spring of Mercy flows for all souls, inexhaustible and unfathomable, a mystery that has no end, held in the Blood and in the Water of Christ.

This Blood is now being poured out upon the world, upon the life of all creatures, changing their genes and their heart into the likeness of Christ.

The Blood of Christ is already being poured out upon the world and upon all beings, not only to redeem, but also to transform and restore life.

Humanity will finally come to know the Thought of God and, within themselves, they will go through what it is to feel and experience the Living Christ.

The Blood of Christ descends upon the Earth, transforming all blood and all life. His Passion became a living Eucharist for the whole planet, and His surrender now not only redeems the Tribes of Israel, but also all creatures, all life, all essences.

The sacrifice of Christ becomes a spiritual and cellular communion and, like a divine miracle and a spiritual Grace, souls are touched and transubstantiated by the Blood of Christ in the same way as the wheat and the grape upon the altar.

Humanity will be the Altar of Christ in this time of the planet, and everyone who prays in the name of His sorrowful Passion will be a living Eucharist and unity with Christ.

This is the gift of the priesthood spread over the Earth.

This is the miracle of Grace and of Divine Mercy that touches all creatures.

Meditate upon His Passion and yield your hearts. Live a unity with Christ.

You have My blessing for this.

The Most Chaste Saint Joseph
