DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

May your heart feel the pain of the world and be moved, finding the way of repairing the suffering of humanity in each instant of life.

From the simplest things to the greatest surrenders, offer God your actions, feelings and thoughts so that He may transform you into an instrument of repair for the human consciousness.

From within you, each day, may a greater love be born that expresses fraternity and unity with your neighbor, that expresses service and cooperation among brothers and sisters, that expresses overcoming limitations and defeating barriers.

May your heart recognize in all things the opportunity to heal the world so that it may be with prayer or with life, with the word and with silence, with stillness and with service, knowing how to find the need, knowing how to embrace the opportunities and find the Living God in each instant.

You have My blessing for this.

The Most Chaste Saint Joseph
