DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

When a being loves with the Love of God, they grow humanly and spiritually, because this Love leads them to donate themselves, to surrender more and more deeply, to reach spaces unknown to their own consciousness, where love had not yet come, and there, the doors to God open.

A being who loves with the Love of their Creator Father does not fear to surrender before Him, does not fear to die to themselves and to their childishness, does not fear to leave the false freedom and the self-assertion of adolescence to grow up and be a servant of their Creator.

The Love of God brings creatures closer to Truth and, before this Love, nothing that comes from the world has strength, everything loses its meaning, its value, its weight within the hearts, because they discover the Infinity.

The being who loves with the Love of God only aspires to build His Kingdom and make known the Love of the Creator. They learn to live by His miracles, awaken the faith within themselves, open the consciousness toward Divine Wisdom, becoming permeated by the Gifts of the Holy Spirit, because, every day, they aspire less for themselves and more for God; they empty themselves and give place to God, thus, they grow humanly and spiritually.

Aspire for this, children: to live this Love, find this Truth and grow humanly and spiritually.

You have My blessing for this.

The Most Chaste Saint Joseph
